Section 1. How this plan works

You may see any provider. You pay less when you use a network provider. No referral is required to see a specialist.

Deductible: \$1,000 individual / \$2,000 family. Out-of-pocket limit: \$5,500 individual / \$11,000 family.

Section 4. Covered health services

4.12 Temporomandibular joint (TMJ) disorders. This plan covers diagnosis and medically necessary treatment of temporomandibular joint disorders, including evaluation, imaging, intra-oral splints, physical therapy, arthrocentesis and arthroscopic or open joint surgery. Surgery is covered only after documented failure of at least three months of conservative non-surgical treatment.

4.13 Obstructive sleep apnea. This plan covers a custom-fabricated oral appliance for obstructive sleep apnea when a sleep study documents the diagnosis and the appliance is ordered by the treating physician.

4.14 Oral and maxillofacial surgery. This plan covers treatment of fractures of the jaw and facial bones, removal of tumors and cysts of the jaw, and surgical removal of bone impacted teeth.

4.15 Accidental injury to teeth. Treatment of accidental injury to sound natural teeth is covered when treatment begins within 12 months of the accident. Damage caused by biting or chewing is not an accidental injury.

Section 5. Prior authorization

Prior authorization is required before TMJ surgery, orthognathic surgery, oral appliances for sleep apnea, and any oral surgery performed in an outpatient facility or hospital. Services without prior authorization may be denied. We recommend that you request a pre-treatment estimate before any oral surgery.

Section 6. Exclusions and limitations

This plan does NOT cover routine dental care: cleanings, fillings, crowns, bridges, dentures, root canals, routine extractions of erupted teeth, periodontal treatment, dental implants and orthodontics.

This plan does NOT cover dental services solely because a medical condition makes dental treatment more complex.

This plan does NOT cover cosmetic procedures.
